

Vibrant receives 2011 JTIP funding

Albuquerque, NM – May 13, 2011

Vibrant has been approved for JTIP (Job Training Incentive Program) funding by the New Mexico Economic Development Department. The purpose of this funding is to provide on-the-job training for three New Mexico residents. CEO Lem Hunter says “the JTIP funding assists Vibrant in continuing its growth and we thank the State of New Mexico and the NMEDD for continuing to support small business growth.” Vibrant is taking full advantage of this funding and has posted for 3 new positions in the company.

More information about JTIP can be found at:

About Vibrant

Vibrant Corporation has commercialized Process Compensated Resonance Testing (PCRT) for use in the aerospace and power generation industries. The PCRT technology, licensed from Magnaflux Quasar, is a revolutionary non-destructive testing technology that can determine if a component is structurally sound and fit for service. Vibrant has developed PCRT applications focused on the safety critical components found in the aerospace industry. These applications bring the power of PCRT to bear on new product quality control and in-service product degradation tracking. Vibrant is now performing testing services for several major aerospace manufacturers and Maintenance, Repair, and Overhaul (MRO) firms. www.vibrantndt.com
