New Application Engineer Announced

Eric Biedermann to Apply Process Compensated Resonance Testing (PCRT) Technology to Aerospace and Power Generation

Albuquerque, NM – June 5, 2009 – Vibrant Corporation announced today that it has hired Eric Biedermann as its newest Application Engineer.

Mr. Biedermann comes to Vibrant Corporation with more than six years of experience in aerospace engineering. He is a Turbine Aerodynamics Engineer with Rolls-Royce Corporation and will join Vibrant in July.

“We’re very excited to have Eric come aboard,” said Vibrant CEO Lem Hunter. “We’re getting an engineer with exceptional skill, professionalism, and passion. At Vibrant he’ll bring those qualities to bear on product application for the aerospace and power generation industries.”

Highlights of Mr. Biedermann’s career include the design of turbine airfoils for jet engines and the analysis of manufacturing variation’s effect on engine performance. He holds a Bachelor’s Degree in Aerospace Engineering from the University of Illinois and a Master’s Degree in Mechanical Engineering from Purdue University
