## **Vibrant Corporation Awarded SBIR Contract**

*SBIR contract for non-destructive testing of hybrid bearings awarded to Vibrant.*

**Albuquerque, NM – December 17, 2007** – Company officials today announced the award of a Small Business Innovation Research (SBIR) contract, worth \$80,000 from the Naval Air Warfare Center - Aircraft Division. The objective of the project is to develop a cost effective non-destructive system to facilitate high-rate, high precision, hybrid bearing inspection.

Vibrant Director of Technology, Thomas Togami said, "This project is a fantastic opportunity to demonstrate the Process Compensated Resonance Testing (PCRT) capability where conventional inspection techniques fall short. The system has already demonstrated its ability to detect manufacturing defects and surface defects caused by mishandling. This is a big win for Vibrant."

### **About Vibrant Corporation** ([www.vibrantndt.com](http://www.vibrantndt.com))

Vibrant Corporation provides nondestructive testing services to customers in the aerospace manufacturing and maintenance markets. The Company helps its manufacturing customers to increase production yields while decreasing the likelihood of type two failures, and helps its MRO customers to identify damaged or aged components sooner than has ever been possible. Vibrant serves nationwide and international customers from its headquarters in Albuquerque, NM.
