Director of Technology Announced

Thomas Togami to Lead the Technology Initiatives for Process Compensated Resonance Testing (PCRT) Technology for Aerospace and Power Generation

Albuquerque, NM – July 30, 2007 – Vibrant Corporation announced today it has filled the position of Director of Technology with Thomas Togami, PE.

Thomas Togami brings over 12 years of experience to Vibrant Corporation from Sandia National Laboratories. He is a Principal Member of the Sandia Technical Staff and will join Vibrant in August. "What a score for Vibrant Corporation," said Vibrant CEO Lem Hunter. "We could not have found a more capable professional engineer. Thomas will be instrumental in the product application development for the aerospace and power generation industries," continued Hunter.

Highlights of his career include shock and vibration testing ranging from component to full-scale system level testing. Thomas has extensive experience in system design and development, complex project management of technical projects and interfacing with customers at the technical and programmatic levels. Mr. Togami holds a BS and MS degrees in Mechanical Engineering from the University of New Mexico. His masters work emphasized Solid Mechanics and his degree was received with distinction.

About Vibrant Corporation (www.vibrantndt.com)

Vibrant Corporation provides nondestructive testing services to customers in the aerospace manufacturing and maintenance markets. The Company helps its manufacturing customers to increase production yields while decreasing the likelihood of type two failures, and helps its MRO customers to identify damaged or aged components sooner than has ever been possible. Vibrant serves nationwide and international customers from its headquarters in Albuquerque, NM.
