Vibrant Corporation Fills Key Positions

Senior Aerospace Engineer and Quality Systems Manager Named

Albuquerque, NM – April 6, 2007 – Vibrant Corporation announced today that it has filled two critical open positions. David Baker has joined the firm as a Senior Aerospace Engineer, and Laura Beltemacchi has accepted the Quality Systems Manager position. "I can't believe our luck," said Vibrant CEO Lem Hunter. "Being able to find and attract people as talented and experienced as Laura and David so early in this young Company's life bodes very well for our aggressive growth goals," Hunter said.

David Baker brings over 28 years of successful technology involvement, primarily with GE Aircraft Engines. Technical highlights include electronic engine controls, precision high temperature metal components, and advanced high-temperature composite materials. Dave has extensive experience using applied statistics modeling and analysis of measurement data to improve processes and product designs. Dave holds a BS in Applied Science, Engineering Technology from Miami University and an MS Degree in Engineering Management from Syracuse University

Laura Beltemacchi brings 19 years of project management and quality process experience from technology based companies to Vibrant. Laura has a BA in Business Administration from the Illinois Institute of Technology and an MA in Computer Resources and Information Management from Webster University. Laura is a Certified Project Management Professional, Certified Manager of Quality and Organizational Excellence, and a Certified Software Quality Engineer.

About Vibrant Corporation (www.vibrantndt.com)

Vibrant Corporation provides nondestructive testing services to customers in the aerospace manufacturing and maintenance markets. The Company helps its manufacturing customers to increase production yields while decreasing the likelihood of type two failures, and helps its MRO customers to identify damaged or aged components sooner than has ever been possible. Vibrant serves nationwide and international customers from its headquarters in Albuquerque, NM.
